F1  Opening of Conference by Cllr Vikki Slade, Leader of Bournemouth, Christchurch and Poole Council

F2  Federal Conference Committee Report

Q1. Submitted by Malcolm Mitchell

Why has the Autumn 2020 Conference scheduled to be a fortnight later than usual?

Q2. Submitted by Jacqueline Bell

It is recognised that volunteers are used. However, hard copy agendas have been very late to arrive, impacting on opportunity to submit amendments. Can this be improved?

F3  Federal Policy Committee Report

Q1. Submitted by Suzanne Fletcher

Could the policy committee, as well as having liaison representation for the regions (although noted that there is no known rep for 3 regions) and SAOs, also have someone with the responsibility of liaising with AOs, or at least informing them, of any relevant policy development work.

F4  Continuing the Fight for Gender Equality

The FCC has agreed to make the following drafting amendment to the motion:

1  In 6. (line 75), after ‘parliamentarians’ insert ‘and councillors’.

F7  Business Tax Reform: Fair for Business and Fair for Society

The FCC has agreed to make the following drafting amendments to the motion:

1  In 3. (line 68), after ‘jurisdictions’ insert ‘, and should be required to publish beneficial
2  ownership, country-by-country reporting, and a clear tax policy with a commitment not to use
3  tax havens’.

4  After 6. (line 85), add:

5  7. A system which minimises disruptive effects on developing countries, to be established
6  by a spillover analysis of the system, and in particular the UK’s tax treaties.

7  Conference also calls for the investment of significant extra resources into HMRC to ensure
8  that the tax system is fairly applied and administered.

Amendment Two

14 members
Mover: Oliver Craven.
Summation: James Baillie.

1 Delete lines 37–45 and insert:

Amendment Three

South Cambridgeshire
Mover: Paul Browne.
Summation: Mark Lunn.

1 After line 45 insert:

2 Conference notes with concern Conservative plans to establish up to ten new so-called free ports in the UK, creating tax-havens that increase unfairness in the tax system and undermine public finances, and which were also identified as potentially vulnerable to counterfeiting, VAT fraud and money laundering in a European Commission report published on 24 July 2019.

6 c) Extend legal recognition of humanist marriages across the UK.

7 After 2. (line 54), insert:

8 3. The UK Government to make an order under section 14(4) of the Marriage (Same Sex Couples) Act 2013 at the earliest opportunity, to allow humanists to conduct legally recognised marriages in England and Wales.

**Amendment Two**

*26 members*

**Mover:** Cllr Tim Pickstone.

**Summation:** Ed Fordham.

1 After ix) (line 41), insert:

2 x) Obstacles also exist to equal marriage by the Marriage (Same Sex Couples) Act 2013 giving all faith organisations exemption from equalities legislation so that faith organisations have to ‘opt-in’ to perform same-sex marriages, and specific clauses preventing the Church of England and Church of Wales from opting-in to performing same-sex marriages.

7 Conference welcomes the many churches and other faith organisations who have chosen to support same-sex marriages, and welcomes the significant progress that is being made by many including the Methodist Conference in Britain and by many in the Church of England.

F13 Reports of the Parliamentary Parties

Q1. Submitted by Mike Williams and Andrew Warburton

Why were the LGBT+ Lib Dems not consulted or spoken to before the defection of an MP with a controversial background on LGBT issues?

Q2. Submitted by Andrew Hinton

What about Dr Phillip Lee’s record made anybody think he was any shade of liberal, and would someone like to assure me with a straight face that he would have wanted to join this party in a million years if Brexit were not a factor?

Q3. Submitted by Richard Gadsden

Dr Phillip Lee proposed a policy in 2014 that would have required immigrants to the UK to be tested for HIV and Hepatitis B, and to be excluded in the event of a positive test.
Saturday 14 September

Does the Parliamentary Party consider that excluding people who are HIV+ and not excluding other, far more infectious diseases (like Ebola or tuberculosis) is clearly both homophobic and xenophobic?

What checks did the Parliamentary Party make to ensure that Phillip Lee had reconsidered this position from 2014, or did you choose to disregard this for the sake of the publicity stunt of him crossing the floor on 3 September 2019?

Q4. Submitted by Jon Ball

Did Phillip Lee provide clarifications for his previous positions on LGBT+ relationships and on immigration before his defection to the parliamentary party was accepted?

5 c) Ensuring that no parent waits more than 12 weeks for the outcome of their child’s assessment for an EHCP, whilst strengthening the enforcement of the existing

Summation: Aria Dinakara Babu.

1 After 7. d) (line 146), add:

2 Conference however rejects the proposal in policy paper 137 for an extension of the sugar tax to include juice and milk-based drinks that contain added sugar, and opposes the sugar tax policy entirely.

F17 Stop Brexit

11 members
Mover: Tom Brake MP (Shadow Cabinet Member for Exiting the EU).
Summation: Caroline Voaden MEP.

1 Conference notes that:

2 A. The Conservative Government have made a mess of Brexit and Jeremy Corbyn’s Labour Party have been helping them to deliver this destructive Brexit.

3 B. Speaker John Bercow has stated that crashing out of the EU is impossible without Parliament giving approval and Parliament is now set to pass a Bill requiring the Prime Minister to request an Article 50 extension until 31st January.

4 C. The European Court of Justice has ruled that the UK can unilaterally revoke Article 50, and therefore no-deal is avoidable.

5 D. Liberal Democrats fought the 2019 European Elections on a clear Stop Brexit manifesto and secured the best EU Election results in the party’s history, returning 16 MEPs and taking second place in vote share across the country.

6 E. Reports were widespread of UK citizens abroad and EU citizens living in the UK denied their right to vote in the EU Elections.

7 F. On 23rd July Boris Johnson became Prime Minister and committed to taking the UK out of the EU with or without a deal on 31st October, setting aside an extra £2.1bn for no-deal preparations.

8 G. On 28th August Boris Johnson announced the prorogation of Parliament from the week of the 9th September until the 14th October, shutting down democracy and attempting to silence the voice of elected representatives.

9 H. The Conservative Government has announced plans to end Freedom of Movement, a move that would cause chaos, deprive UK citizens of their rights to live, work and study across Europe, and leave EU citizens vulnerable to the Hostile Environment; Jeremy Corbyn’s Labour Party is also committed to ending Freedom of Movement.

24 Conference believes that:

25 i) There is no deal that could be negotiated that could be more beneficial than continued
Conference reaffirms the Liberal Democrat commitment to:

a) Fighting in Parliament for an “exit from Brexit” referendum and for the public to choose between “the deal” or staying in the EU; with Liberal Democrats campaigning for the UK to remain a full and active member of the EU.

b) Revoke Article 50 if the House of Commons has not passed a resolution approving the negotiated Withdrawal Agreement one week ahead of the date on which the UK is due to leave the EU.

c) Protect Freedom of Movement and extend the right to full participation in civic life to all EU citizens who have lived in the UK for five years or longer.

d) Work cross-party to ensure Parliamentary sovereignty is upheld, and a Conservative government is unable to force through a disastrous no-deal Brexit.

Conference calls for:

1. Liberal Democrats to campaign to Stop Brexit in a General Election, with the election of a Liberal Democrat majority government to be recognised as an unequivocal mandate to revoke Article 50 and for the UK to stay in the EU.

2. The government to implement urgent electoral law reform, in line with the 2014 Electoral Commission’s recommendations, including introducing a legal requirement for Councils to inform citizens of the steps they must take to be successfully registered; and making necessary changes to ensure that the UK has an automatic system of inclusion in elections.

3. The Conservative government to implement a declaratory system to grant settled status to all EU citizens living in the UK, rather than the current constitutive process, so that they need not apply but can simply register to receive physical proof of their right to live in the UK.

The deadline for amendments to this motion is 13.00 Thursday 12 September. Amendments selected for debate will be printed in Sunday’s Conference Daily. The deadline for requests for separate votes is 09.00 Saturday 15 September.

F21 Federal Board Report

Q1. Submitted by Simon Pike

Why is the right of appeal in Section 5.2.2 of the disciplinary procedure limited to three days, when the Federal Constitution specifies fourteen days?

In the disciplinary procedure, why can a complaints panel postpone a hearing only in ‘exceptional circumstances’?
circumstances’ (section 5.2.3.4), whereas ACAS statutory guidance for disciplinary hearings requires flexibility?

Q2. Submitted by Michael Berwick-Gooding

In the Federal Constitution it states that each committee of the Federal Party (and Federal Board is listed as one in 7.1) shall make regulations which must include provision for a report by the chair to members to be made 14 days after each meeting (7.7). Please can the date of the last four Federal Board meetings be stated with the dates of when and how these reports were made to members?

In the Federal Constitution it states that each committee of the Federal Party shall make regulations which must include provision for a report by the chair to members to be made 14 days after each meeting (7.7). It also states that this provision shall apply to any body accountable to them. I assume this means sub-committees and other groups set up by a committee. How does the Federal Board ensure that the provisions of Article 7.7 are fulfilled by all Federal committees, sub-committees and groups set up by a Federal committee and what action does it take when this article is not complied with?

Q3. Submitted by: Theo Butt Philip

Earlier today conference debated motion F4 which included a call for: ‘The Liberal Democrats, and all political parties, to implement Section 106 of the Equality Act 2010, publishing their candidate diversity data…’.

I have previously asked for the report of the Campaign for Gender Balance to include:
1. The number of women selected as PPCs, what this is as a percentage of selected PPCs overall and how this has changed since the last conference.
2. The number of women on the list of approved Westminster candidates and what this is as a percentage of the list and how this has changed since the last conference.
3. The number of women applying to be approved as Westminster candidates and what this is as a percentage of people applying to be approved as Westminster candidates.

Despite repeated request for this information to be included in the CGB report, it is still absent. Without the information outlined above Conference lacks sufficient information to judging the effectiveness of the CGB and the scale of the problem we still face.

When will the CGB be in a position to publish this information?

Q4. Submitted by Suzanne Fletcher

Did the review of the European Election include the GOTV phone bank on polling day?

Q5. Submitted by Suzanne Fletcher

1. What is the point of ‘Campaigns’ on the Federal Party Website, where people who are concerned about a policy issue sign, and then they receive no further information other than a confirmatory e-mail; no information given such as direction to party policy or a relevant SAO or AO, and our Parliamentarians are not informed as to response?

2. Whilst appreciating that our PR department is under a lot of time pressure, and lack of resources, why cannot a URL be given when press releases are sent out, that party members receive? It would
Sunday 15 September

make the valuable work done be disseminated even further, if we could link the splendid actions and words of our parliamentarians, that are in the press releases, onto social media.

Amendment One

Newark & Sherwood

Summation: Keith Melton.

1. Delete lines 11–22 and insert:

2. Conference therefore resolves that the UK must reduce its emissions of greenhouse gases as a matter of extreme urgency.

4. Conference recognises that early action on setting and achieving drastic but credible interim targets is more important than setting a notional, precise end-date to achieve net-zero
Monday 16 September

6 emissions, and therefore endorses the interim aim of a 75 per cent reduction from 1990 levels by 2030 at the latest.

8 Conference also recognises that the rapid global heating effects of methane have been severely under-estimated until very recently, and therefore calls for urgent action to reduce methane emissions, in particular from intensive beef farming and the industrial energy sector and by immediately banning fracking.

12 Conference believes that these steps would enable a faster reduction in greenhouse gas emissions, and calls for an interim target of a 90 per cent reduction by 2035 leading to net-zero emissions by 2040 (with all targets subject to revision should faster progress prove possible).

Amendment Two

Chippenham
Mover: David Vigar.
Summation: Helen Belcher.

1 After line 31, insert:

2 Conference recognises the UK’s offer to host the 2020 UN climate change summit (COP26) and, in keeping with the policy paper’s demand “to raise global ambition”, calls for the UK to propose a major strengthening of the UN’s capacity to lead emissions reduction by appointing a UN Climate Commissioner and executive team to hold governments to account and mobilise public opinion, with the UK offering an initial contribution to the increased resourcing required.

Emergency Motions Ballot

Two of the following motions will be selected by ballot to be debated at F32 at 17.15 on Monday 16 September and at F33 at 09.00 on Tuesday 17 September. Ballot papers will be printed with Saturday’s Conference Daily and the ballot box will be open in the Auditorium between 09.00 and 12.50 on Saturday 14 September.

Emergency motion 1: Amazon fires

Lambeth

1 Conference notes with alarm the 84 per cent increase in the number of wildfires in the Brazilian Amazon between January and August 2019, compared to the same period in 2018.

2 Conference condemns the actions of the Bolsonaro government in encouraging the clearance...
of forests for agriculture, in breach of its own international commitments on climate change and biodiversity.

Conference further notes that:

a) The protection and restoration of the world's forests is essential to tackling climate change, protecting biodiversity and guaranteeing the survival of many indigenous peoples and forest communities.

b) Clearance for agriculture is the single biggest driver of deforestation world-wide, and is particularly important in tropical forests.

c) Many of the commodities so produced, including soy, palm oil, beef and leather, timber, pulp and paper and cocoa, are destined for export markets in Europe, North America and Asia.

d) Most of the palm oil imported to the EU, and a significant proportion of soy, are destined for use for energy, mainly as biofuels for transport.

Conference calls on the EU and its member states, including the UK, to:

1. Refuse to ratify the Mercosur-EU free trade agreement until the Brazilian government has put in place effective measures to protect Brazilian forests and the rights of forest communities and indigenous peoples.

2. Introduce legislation requiring companies based in or operating in the EU not to place on the EU market any products whose production is associated with illegal or unsustainable deforestation.

3. Phase out subsidies and regulatory support for the production of biofuels based on crops.

4. Negotiate agreements with governments of forest-rich developing countries to improve forest governance and law enforcement and to make trade in forest risk commodities with the EU conditional on legal and sustainable production.

5. Work with other major consumer countries, including in particular China, to put in place global systems to regulate trade in illegal and unsustainable forest risk commodities.

6. Increase bilateral and multilateral development aid for the protection of forests worldwide.

Applicability: Federal.

Emergency motion 2: A duty to Hong Kong

11 members

Conference notes that:

i) The UK and China signed the Sino-British declaration in 1984; the declaration was lodged at the United Nations and included a 50 year-long commitment to ensure that Hong Kong continues to function under a ‘one country, two systems’ framework in order to uphold Hong Kong’s high degree of autonomy and progress towards universal suffrage; Hong Kong sovereignty was handed from the UK to China on 1st July 1997.

ii) In 2017 China’s foreign ministry spokesman Lu Kang described the legally binding Hong Kong handover treaty with Britain “as a historical document, no longer has any practical significance”.

iii) In April 2019 Hong Kong's Beijing-backed legislature introduced an Extradition Bill that
Emergency motions ballot

would have enabled Beijing to extradite individuals from Hong Kong to China without
a guarantee of a fair trial.

iv) Having initially suspended the controversial Bill, it was eventually fully withdrawn by Hong
King’s Chief Executive, Carrie Lam.
v) Up to two million people have taken to the streets of Hong Kong to protest the
Extradition Bill and call for democratic reforms; these demonstrators were largely
peaceful, picking up litter and parting efficiently for emergency vehicles.

vi) Clashes and violence over the protests have escalated, with reports of police using rubber
bullets, tear gas, water cannons, and firing warning shots of live ammunition.

vii) Satellite photos show what appear to be armoured personnel carriers and other
vehicles belonging to the China’s paramilitary People’s Armed Police parked in the city of
Shenzhen, which borders Hong Kong.
viii) Recent opinion polls show that 90 per cent of young people between the ages of 18 and
29 view Carrie Lam unfavourably, but the electoral system, whereby the leader is elected
by an ‘Election Committee’ of 1,200 people, means they have no say.

ix) Lord Ashdown led the campaign to give the people of Hong Kong British citizenship,
including the right to abode, if China ever reneged on the promises enshrined in the
international treaty.
x) Liberal Democrats have worked to hold the Conservative government to account on the
UK’s obligations to the people of Hong Kong.

Conference believes that:

A. The introduction of the Extradition Bill, the sentencing of pro-democracy protestors
and reports of police violence in Hong Kong represent contravention of the Sino-British
declaration.

B. The UK has a moral and legal responsibility to ensure that democracy, the rule of law, and
human rights are upheld in Hong Kong.

C. The UK must stand with protestors in Hong Kong in their fight to protect and enhance
their rights and freedoms, calling for the full withdrawal of the Extradition Bill, a full
investigation into police violence, and for further progress towards universal suffrage.

Conference calls for:

1. The UK government to offer the people of Hong Kong British citizenship including the
right to abode.

2. The UK government to use Britain’s diplomatic and trading relationship with China to help
ensure Beijing refrains from using excessive or military force to end the protests.

3. The UK government to ensure that the UK and our international partners indefinitely
suspend all export licenses for crowd control equipment to Hong Kong.

Conference notes with concern that:

i) The Government of India has revoked the special status accorded to the state of Jammu
Emergency motions ballot

4 ii) Under Article 370(1) of the Constitution of India, such a revocation may only be effected with the “concurrence” of the state government of Jammu and Kashmir.

5 iii) By effecting this revocation at a time when there is no elected state government in power and the state is under the President's direct rule, the federal Government has abrogated the spirit of Article 370.

6 iv) Accompanying these actions, the Government of India escalated military presence in Jammu and Kashmir, enforced curfews, enforced a media blackout and blocked all communications.

7 v) The Government of India has detained and arrested Kashmiri leaders and party workers, including two former Chief Ministers of state kept in house arrest in hotels.

14 Conference further notes that:

15 a) The Office of the UN High Commissioner for Human Rights found in 2018 the Indian state guilty of “excessive force that [...] led to unlawful killings and a very high number of injuries”, and denying access to justice to Kashmiris.

16 b) It recommended measures to eliminate the impunity with which security forces were able to act and improve accountability for human rights violations of the state.

17 c) Instead of adopting these recommendations, the Indian state's recent actions have worsened the situation for human rights in Jammu and Kashmir.

19 Conference therefore calls for the UK government to work multilaterally within the European Union, the Commonwealth, and United Nations with the instruments they have at their disposal to call on:

20 1. The Government of India to lift media and communications blackouts and release those arrested without warrants.

22 3. The UN High Commissioner for Human Rights to enter the state of Jammu and Kashmir and report on the state of affairs since 5th August 2019.

28 Conference also calls for the party to work with its liberal counterparts around the world to achieve the same goals.

30 Conferences also re-affirms the call in policy motion India and Pakistan (2002) for the Governments of India and Pakistan to undertake in good faith dialogue and processes designed to lead to a final settlement over Kashmir.

Applicability: Federal.

Emergency motion 4: Freeports

10 members

1 Conference notes:

2 i) The proposals of the Secretary of State for International Trade to establish up to ten freeports – a special kind of port where normal tax and customs rules do not apply – in the UK on August 2nd, based on the recommendations of a new Freeports Advisory Panel.

3 ii) That there are currently no freeports in the UK, although there is one on the Isle of Man,
Emergency motions ballot

and there are freeports in the EU, eg, in Bordeaux in France, Bremerhaven in Germany and in Luxembourg.

iii) The findings of the 2018 European Parliament report Money laundering and tax evasion risks in free ports, which argues that:

A. While freeports were initially intended for goods in transit, they are increasingly used as ways to store assets such as collections of, eg, art and antiques as a way to avoid scrutiny and avoid normal checks and controls.

B. Because freeports allow almost anyone to bring in goods on behalf of someone else, without disclosing the ultimate beneficial owner, people are able to use them to hide from tax authorities.

iv) That the government is proposing freeports as a way to avoid tariffs in the event of a no-deal Brexit, but – given that advocates of a no-deal Brexit argue for setting tariffs to zero for the vast majority of goods – it is unclear what they would achieve even in that scenario.

Conference believes that:

a) Freeports increase the risk of money-laundering and tax evasion, and neither the UK nor the EU should not act in a way that facilitates these practices.
b) Using freeports to promote particular types of manufacturing in a geographic area risks simply moving industries from one part of the UK to the freeport, and this would mean damaging areas that lose established industries without creating any additional jobs.
c) There is no system for reducing barriers to trade that compares to the benefits of membership of the EU and access to the single market and customs union.
d) UK industry already enjoys many of the claimed-benefits of freeports across the whole country through tariff-free and integrated EU-wide supply chains.
e) There are no circumstances in which the expense of establishing a network of freeports makes sense in the context of the UK.

Conference calls for Liberal Democrats to:

1. Oppose the establishment of freeports in the UK.
2. Work with European partners to ensure that all existing freeports within the EU are not used for the purposes of tax evasion or as tax havens and to ensure transparency around transactions at freeports.
3. If it is not possible to prevent the abuse of freeports, work with European partners to scrap freeports across the EU.

Applicability: Federal.

Emergency motion 5: Standing up for parliamentary democracy

11 members

Conference notes that:

A. The Westminster model of government and the ‘Mother of All Parliaments’ are held in high esteem around the world and are considered to be the basis of modern parliamentary democracy.

B. On 27 August 2019, the Prime Minister announced that he would prorogue Parliament between 9 and 11 September, preventing Parliament from sitting until 14 October and
Emergency motions ballot

stopping MPs from being able to vote on whether to hold a Conference recess.

C. Liberal Democrats are working on a cross-party basis in Parliament and in the courts to stop our democracy being silenced and restore parliamentary sovereignty.

Conference believes that:

1) The Prime Minister and the Government are the servants of Parliament, are accountable to Parliament, and only continue in post because they command the confidence of the House of Commons.

2) Shutting down parliamentary democracy for so long during the most significant political crisis in recent memory is an authoritarian power grab by the Prime Minister, significantly reducing the number of days that Parliament can sit before 31 October 2019.

3) The decision silences democracy, preventing MPs from scrutinising Government policy decisions and the potential impact of a no-deal Brexit in the days leading up to 31 October.

4) The Prime Minister's purely politically motivated decision undermines faith in the fairness of the British political system and strengthens the case for constitutional reform.

5) Liberal Democrats in Parliament will stand up for the people's right to have their say on the final Brexit deal by ensuring that the United Kingdom does not leave the European Union without a deal on 31 October 2019 and by leading the campaign for a People's Vote in order to stop Brexit altogether.

Conference calls on the Government to:

a) Rescind the Order-in-Council proroguing Parliament immediately, enabling Parliament to fulfil its democratic purpose and sit throughout the remainder of the Conference Recess in order to ensure that the UK does not leave the European Union on 31 October 2019 without a deal.

b) Enable Parliament, rather than the Queen-in-Council, to approve when Parliament is prorogued and for how long, just as the House of Commons approves its own recess dates.

c) Set up an independent commission made up of parliamentarians, academics, the judiciary and others, to consider each power that the executive is able to exercise under the Royal Prerogative and make recommendations on how to curtail the illiberal centralisation of power into the executive and in particular the use of the Royal Prerogative.

Conference reaffirms its commitments, as set out in Policy Paper 117, Power to the People, to make government more accountable both Parliament and to the people by:

1. Creating a House Business Committee to enable backbench MPs and MPs from opposition parties to influence the parliamentary timetable.

2. Providing that a new Prime Minister and their administration can only take office formally once the House of Commons has voted for them to do so.

3. Electing MPs by Single Transferable Vote in multi-member constituencies and electing the House of Lords.

4. Establishing a Constitutional Convention to draw up a comprehensive written constitution for the UK.

Applicability: Federal.
